Thanks. Pls let Dennis know OSRTI did a review and we are comfortable with the estimates in the PP.

Thanks

Jim,

I spoke to Kevin and went over some of the drivers for the major differences. At this point, DEQ have agreed to soften their comments to just asking EPA to look at these ones to check our assumptions. We will be talking with Dennis today to see whether he wants the "softened" comment to come in early (this week). Bill Ross' recommendation to us is to wait for this comment at the end but could start on the other technical ones.

Thanks,

package to the PP are reasonable and in line with other sites. I asked him to reach out to you all and share his analysis and would like him to be involved with conversations with DEQ.
